Quick summary of Panel Stats

Value of closed projects	~$8.6 m
Projects currently open	38
Agencies using the panel	30
Average value of projects completed	$744,388.00

CYBER SECURITY SERVICES PANEL

The additional portal to the eProjects Panel, the Cyber Security Services Portal (CSSP), has gone live and can be used to engage suppliers for a range of cyber security services.

Supplier membership to the CSSP is now open and information on how to join can be found at www.sa.gov.au/eprojectspanel

The CSSP is intended to procure:

· investigation services
· security assessments and auditing
· security policy/strategy consultancy
· system architecture and design.

The CSSP is in line with the requirement for agencies to implement an Information Security Management System.

AGENCY USERS AND SUPPLIERS

Agencies and suppliers are encouraged to review their user lists to ensure they are current and that all details are up-to-date.

MACHINERY OF GOVERNMENT

It is important that agency users let us know if contact details have changed owing to a change in agency or department.

ALL ORDERS MUST BE TRANSACTED VIA THE PORTALS

We have received Crown Solicitor's Office advice indicating that in order for the Deed and General Order to be a valid agreement, projects should be transacted via the portals.

CLOSING PROJECTS

Did you know that both the agency and supplier need to provide brief project feedback in the portal once a project has been delivered for the project to be closed?

If you have a project that has not been closed, can you please ensure you complete these tasks as soon as possible.

If you have forgotten your login details please email Elaine.

CONTACT INFORMATION

Elaine has recently joined Melissa Radivojevic to support the eProjects Panel.
